Johnson & Johnson INSTITUTE

Advanced Bariatrics with Dr George Hopkins

30th & 31st May 2023

Bariatric Surgeons

St Vincent's Northside Private Hospital

Expression of Interest

Overview

In this two-day course Dr George Hopkins will share his expertise and experience in bariatric and metabolic surgical procedures, management of complications and the optimisation of patient pathways. During a day of live case observations, attendees will develop in depth knowledge on primary and sleeve gastrectomy and revisional procedures. Live discussions with Dr George Hopkins and the opportunity to engage in further discussion with fellow attendees the following day at the practice, giving an overview of the allied health requirements of a busy bariatric and metabolic practice, giving valuable insights into best practice in patient selection and pre- and post-operative management to improve patient outcomes.

Delegate Criteria

Mid to experienced Consultant Bariatric and Metabolic Surgeons, working in Australia, interested in increasing their skills in sleeve gastrectomy and revisional procedures practice management and patient support.

Agenda

To be confirmed.

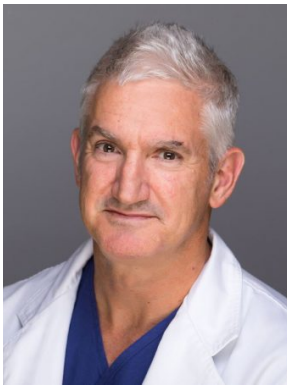
Faculty



Dr George Hopkins, MBBS, FRACS

Dr George Hopkins is a bariatric, general, and gastrointestinal minimally invasive surgeon, trained in Australia and the United Kingdom. Dr Hopkins is the Director of Obesity Surgery Brisbane and operates at the St Vincent's Private hospital Northside and Royal Brisbane and Women's Public Hospital. He completed his sub-specialty training as Fellow at the Minimal Access Therapy Training Unit (MATTU), Royal Surrey County Hospital (Guildford, UK, 2000) and at the Royal Brisbane hospital as Laparoscopic Upper Gastrointestinal Fellow (2001). His professional memberships include Fellow of the Royal Australian College of Surgeons, Member of the board and Past President of ANZMOSS, and Member of the International and Australian Hepatopancreatobiliary Associations. Dr Hopkins is a co-author of many peer-reviewed publications on bariatric and metabolic surgery, including on revision surgery and in the public hospital setting.
